

:: FD-215B ::

TECHNICAL SPECIFICATIONS

FOUNDATION SERIES

The FD-215B features an extremely compact cabinet offering high power handling and high sensitivity. The combination of a newly designed speaker surround on a unique 15" driver along with a precisely tuned enclosure results in a highly accurate, wide bass range response with very low power compression.

OUTLINE DRAWING

DESCRIPTIVE DATA

Frequency range •	45 Hz - 500 kHz	Material/Cabinet •	5/8" Birch 13 ply
Sensitivity (SPL 1W @ 1m) •	100 dB	Finish •	Urethane
Maximum SPL •	136.4	Grille •	Perforated metal
RMS (W) •	1100	Connections •	-
Peak power (W) •	2200	Height (In/cm) •	32" / 81.44
Impedance (Ohms) •	4 opt. 8	Width In/cm •	25 7/8" / 65.72
Passive crossover •	120 Hz	Depth (In/cm) •	19 7/8" / 50.48
Dispersion (Horiz./Vert.) •	-	Weight (lbs/Kg) •	140 / 63.64
High frequencies •	-	Fixing points •	-
Low frequencies •	2 x woofer 15"
